Formulate just got BRIGHTER

Formulate Monolith LED

Bringing 360° LED illumination to our ever popular Formulate range.

Introducing the New Formulate Monolith LED.

Bringing illumination to our ever popular formulate range.

Standing at 2.38m in height*, this elegant lightbox delivers a full 360° graphic visibility, making it a hugely impressive brand marketing display.

With simple tool-free assembly, the Formulate Monolith LED is also highly portable so it can be moved wherever and whenever necessary. Its impressive size and elliptical shape, delivers instant impact which makes it an immediate attention grabber - the perfect addition to any retail or exhibition environment.

The unit comprises of a Formulate frame that is simple to assemble using bungeed tubing with push-fit locking button and numbered frame parts. Low power LED strips are clamped into place at the top and bottom of the frame to provide the illumination.

The tension fit fabric graphic pulls over the frame and is secured by a zip around the base. The base is weighted for extra stability. The frame and graphic pack away into a padded carry bag and there is a separate bag for the driver, LED strip, mains and low voltage cables.

*2m height option is also available.
